WELCOME TO THE YCCN RELAY TO COP26!

POEM BY SIR WALTER RALEIGH

Give me my scallop-shell of quiet,
My staff of faith to walk upon,
My scrip of joy, immortal diet,
My bottle of salvation,
My gown of glory, hope's true gage;
And thus I'll take my pilgrimage.

Reflection from Pope Francis:

Those who know how to contemplate will more easily set to work to change what produces degradation and damage to health. They will strive to educate and promote new habits of production and consumption, to contribute to a new model of economic growth that guarantees respect for our common home and respect for people.

The contemplative in action tends to become a guardian of the environment: this is good!

Each one of us should be a guardian of the environment, of the purity of the environment, seeking to combine ancestral knowledge of millennia-long cultures with new technical knowledge, so that our lifestyle may always be sustainable... this must not be delegated to others: this is the task of every human being.

Each one of us can and must be a "guardian of the common home", capable of praising God for his creatures, and of contemplating creatures, and protecting them.

*Catechesis "Healing The World"
General Audience of 16 September 2020*

P R A Y E R F O R O U R W O R L D

Creator God, who made our beautiful world,
appointed us as its guardians
and gifted us with everything we need,
forgive us
for the times we cause it harm;
for the times our way of life
affects our neighbours.

Inspire us
to care for the environment;
to help rebuild lives and communities;
to share in the griefs and anxieties,
joys and hopes of all your people,
so that all your creation may flourish.
Amen.
